VelillaGroup.

We are a Spanish company **with more than 70 years of experience** in the textile industry.

As workwear specialists, we work side by side with our distributors to offer the best product mix to all workers.

We place at our clients' disposal a wide variety of garments for workers through our three big international brands: **Velilla, V-Pro y Mukua.**

Our commitment and our constant evolution has allowed us to become a reference within the Spanish market. We are leaders with annual sales that surpass **10 million units.**

We have branch offices in Spain, Portugal, Vietnam and Hong Kong and different clients throughout Europe, Central America and North Africa.

More than 180 people work every day with commitment and professionalism, promoting teamwork and market leadership.

"Our goal is to provide the best service to our clients. We grow together and move forward for you"

Regulations

EN ISO 13688

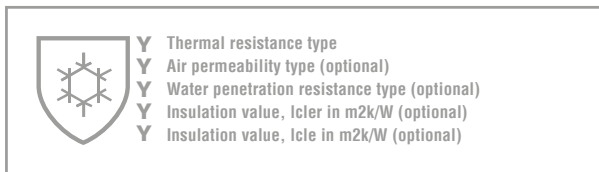

Protective clothing

This standard specifies the general requirements for ergonomics, safety, sizing, aging and labeling of protective clothing. It can only be used in conjunction with other regulations.

EN 14058

Cold Environments

Protection against the effects of cold environments between -5°C and 10°C.

EN ISO 11611

Welding and related processes

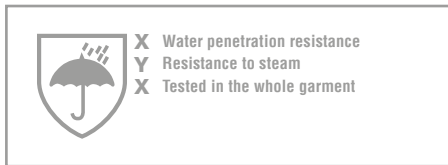

Protection against splashes, short contact with flame and radiant heat from the electric arc. Minimizes the risk of electric shock from contact with conductive materials.

EN 343

Rain

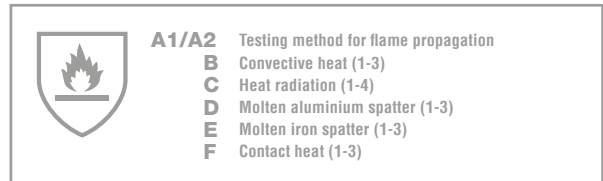

Protection in environments defined by the possible combination of these conditions: rain, fog, soil moisture and wind at temperatures down to -5 °C.

EN ISO 11612

Heat and flame

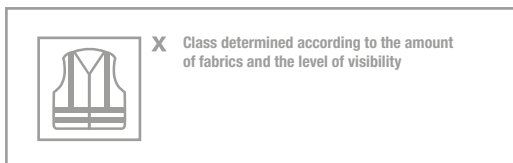

Protection against exposure to radiant, convective or contact heat and molten metal splashes. Limited flame spread.

EN ISO 20471

High Visibility

User visibility under daylight and / or under headlight illumination in the dark (in high-risk situations).

EN 1149-5

Electrostatic properties

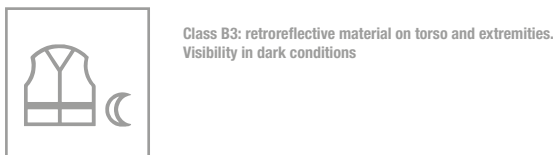

Garments with electrostatic dissipation properties to avoid incendiary discharges.

EN 17353

Improved visibility

User visibility under daylight and / or under headlight illumination in the dark (in medium risk situations).

IEC 61482-2

Thermal risk of electric arc

Offers heat and flame resistance to workers exposed to arc flash risk.

Sizes

Clients may use these charts to confirm which size suits them*.

The measurements provided in these charts are anatomical sizes, taken from an unclothed human body and not from the garments themselves. When we manufacture clothing items, we add a certain slack to obtain the desired ease and comfort. This slack depends on the design, the fabric, the sex, etc. therefore, it turns out into a reasonably tight garment.

*Not every series/collection is available in all the sizes.

Introduction to our High Visibility family

Discover a **wide range of certified garments in High Visibility**. In addition to our collection of traditional garments, we present important novelties such as a **collection of cotton garments, new segmented tape and new colors** to combine.

New range with segmented tape

REFLATEX[®] **RS**
Reflection Level Guaranteed

No stitches! With the **new Segmented Reflatex RS tape**, you will enjoy total freedom of movement, without losing any of the reflective properties.

Thanks to its heat application process, your garments will allow maximum movement capacity. *Selection of items in polo shirts, t-shirts and sweatshirts (p.20 - p.23)*

High Visibility Cotton Collection

Technology and comfort. Our **High Visibility cotton** fabric is characterized by its breathability, softness and comfort. Due to its innovative manufacturing process, you will benefit from all the advantages of the cotton fabric without losing high visibility certification requirements. *Selection of items in polo shirts and trousers (p.46 - p.54)*

REFLECTIVE TAPE

To complete the range of garments with flame retardant and antistatic properties, you can customize the item by adding High Visibility reflective tape.

The tape allows the use of the garments in situations where the lack of visibility could pose a risk to the worker.

Series **602001**, **606001**, **605001** and **603001** are catalogue garments, and are always in stock.

Food Industry

Our collection of unisex garments dress workers in food handling and packaging processes. We meet the market demand by offering garments without outer pockets and with automatic closures, specifically designed to avoid the detachment of elements and contaminating agents. We also have a complete and specific range for working in cold environments

Introduction to our Healthcare and Services family

In this edition, we add new colours to our innovative stretch and microfiber lines. We keep on improving and add new clothing to our Health and Services family by launching an updated classic, a buttoned jacket.

In response to market demands, our cotton garments, as well as the 800 series, are tested to guarantee they can be **washed at 60°C**.

Our stretch fabric is always a guarantee of success. With our sanitary elastic fabric, you will enjoy the main advantages of our already famous stretch fabric, characterized by its softness, durability and its great recovery capacity, along with an extra feeling of comfort, thanks to its peachy texture and touch. **Discover our new Scrub colours** (p.178).

Our cotton fabric provides more comfort and a better management of the humidity. Washable garments at 60°C.

Smart Microfiber / SilverPlus: The best solution for hygiene, protection and freshness. Our Smart Microfiber fabric is characterized by its **softness, elasticity and breathability**. In addition, thanks to its **SilverPlus[®] finish**, our microfiber garments have the latest technology in textile treatment.

This treatment, made up of **silver ions**, will protect the fabrics from the bacteria that cause bad odors. Thanks to its **water-repellent finish**, it will transport body moisture to the outside of the fabric where it will be dispersed.

- Antibacterial
- Antiodour
- Liquid repellent
- Quick drying
- Antiwrinkles
- Breathable

Introduction to our Hospitality family

We have completed our Hospitality line with new, more comfortable and modern fabrics. In addition to our classics, we invite you to discover our latest novelties.

Our stretch fabric is always a guarantee of success. You will enjoy the benefits of our stretch fabric, characterized by its softness, durability and its great capacity of recovery. An extra feeling of comfort, thanks to its texture and peachy touch.

Smart[®]
Microfiber⁺
Smart Antimicrobial Protection

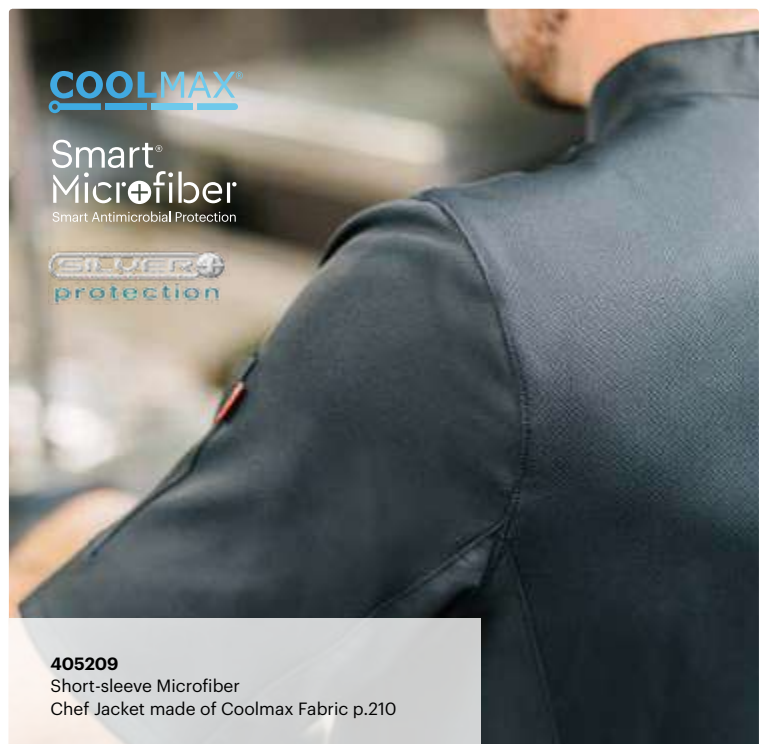

The best solution to obtain **hygiene, protection and freshness.** Our Smart Microfiber fabric is characterized by its **softness, elasticity** and **breathability.** In addition, due to its **SilverPlus[®] finish,** our microfiber garments have the latest technology in textile treatment.

COOLMAX[®]

The Coolmax[®] fabric **helps evaporate humidity and eases perspiration.**

It's made from a special fiber, that creates a circulation system capable of moving the humidity from the skin to the outer layer of the fabric.

This system dries humidity faster and more efficiently, whilst regulating body temperature by evaporative cooling.

Classics adapted to new times...

Shirt collection:

We reviewed the patterns and designs of our classics and added new fabrics such as **Oxford stretch** or **Denim stretch**.
